

I would like to vehemently protest the current petition to allow more LPFM, which would force off the air K-Love. I routinely listen only to K-Love. I have been supporting K-Love for many years and believe in the ministry they are doing. K-Love is an uplifting station that is pure and wholesome. In todays society, people need to hear the word of God, not just for the music, but the inspiration of stories you hear from people that call in. This station has changed so many lives. I would buy a CD player for my car to listen to before I would listen to other stations. We need more stations like K-Love and less secular stations. If K-Love was forced off the air, by a broadcaster which provided other programming, people in this community would be deprived of such a station that cares for the people and not for the ratings.
